Summary

- I am a self-taught designer and developer, based in Singapore.
- I believe that great design is timeless, intuitive and aesthetic.
- I have learnt that coding standards and best practices are absolutely critical for the long-term success of any software project.
- I see teamwork, open communication and compassion as the most key values for working together.
- I realised that adaptability, curiosity and humility are the most important qualities to have for succeeding in the tech industry.

Skills

- Knowledge of **UX methods** like competitive analysis, task flows, user scenarios, personas and interviewing for the creation and testing of UX deliverables
- Highly proficient in **HTML** and **CSS (with SASS)** for **rapid prototyping** in the browser
- Good knowledge of **jQuery** and **Javascript**, as well as version control using **Git**
- Familiar with Unix-based server setup (**LAMP** stack) for website deployment and very comfortable working in the command line environment
- Skilled in **Adobe Photoshop** and **Illustrator** for the creation of web assets

Work Experience

Pixel Onion Pte Ltd
(Oct 2013 – May 2015)

I am a **Front-end developer** and have worked on a variety of projects with several major clients, including DBS bank, Mediacorp and Microsoft as well as the San Francisco International Airport. My main responsibilities and contributions include:

- Designing responsive layouts, typography and site components for optimal user experience
- Developing responsive custom Drupal themes written in Sass and Susy
- Site building, deployment and maintenance using Drupal best practices to ensure scalability and security
- Submission of patches and bug fixes to contrib modules
- Developing a minimal base-theme to facilitate custom theme development
- Writing blog posts about Drupal and other web-related topics

Aristal Solutions Sdn Bhd
(Feb 2012 – Oct 2013)

I was part of the **Project Management Office** on a Core Banking Implementation for a Major Banking Group in Malaysia and my responsibilities included:

- Developing the Project Progress Report for weekly Leadership meetings
- Documenting the minutes of meeting for weekly Leadership meetings
- Managing the overall Program Issue Log to ensure program issues were documented clearly and resolved within the required deadlines
- Facilitating the Technical Architecture checkpoint meetings and documenting the issues and action items for follow up

Subsequently, I joined the **Testing workstream** and was in charge of:

- Consolidating and reporting on key testing metrics (defect retesting progress, retest failure rate analysis, offshore development team patch delivery, UAT exit criteria)
- Performing UAT defect trend analysis
- Analysing and monitoring the status of key functionalities, highlighting the
